Here I would like to give you a detailed introduction about my company **360 Degree Export**. From day one to now **360 Degree Export** has emerged and grown exponentially and diversified as a major manufacturer and exporter of Indian food products, grocery, spices and many other categories. Within 5 years we evolved as a magnificent Export company and spread our wings internationally. We are currently available at 3 locations **ANKLESHWAR - SURAT-UKRAINE**.

Our major focus is to provide a pure quality of product and ensure our policies that every product is being manufactured and packed in a facility that is free of contamination and making them 100% compliant with the competent authority of importing in different countries. Our team of experienced people in this industry takes every possible precaution to keep the freshness of our products, right from the scratch to manufacturing process and final stage of packaging and shipment.

We are operating in the domestic market for the last 25 years and launched our very own **Kanaiya Brand**. We have pioneered ourselves in providing the best products without compromising on the product's quality and taste. Our commitment to on-time delivery and client satisfaction helped us to become a major supplier of Indian food products to different countries such as **China, Singapore, Taiwan, Maldives, South Africa & GCC, West Africa Ukraine, Hong Kong**. As a food product manufacturer, we have introduced our very own brand Nature 360° which is most popular in Maldives, South Africa, Hong Kong, Ukraine. Moreover, it comes under **360 Degree Export's** most demanded product list.

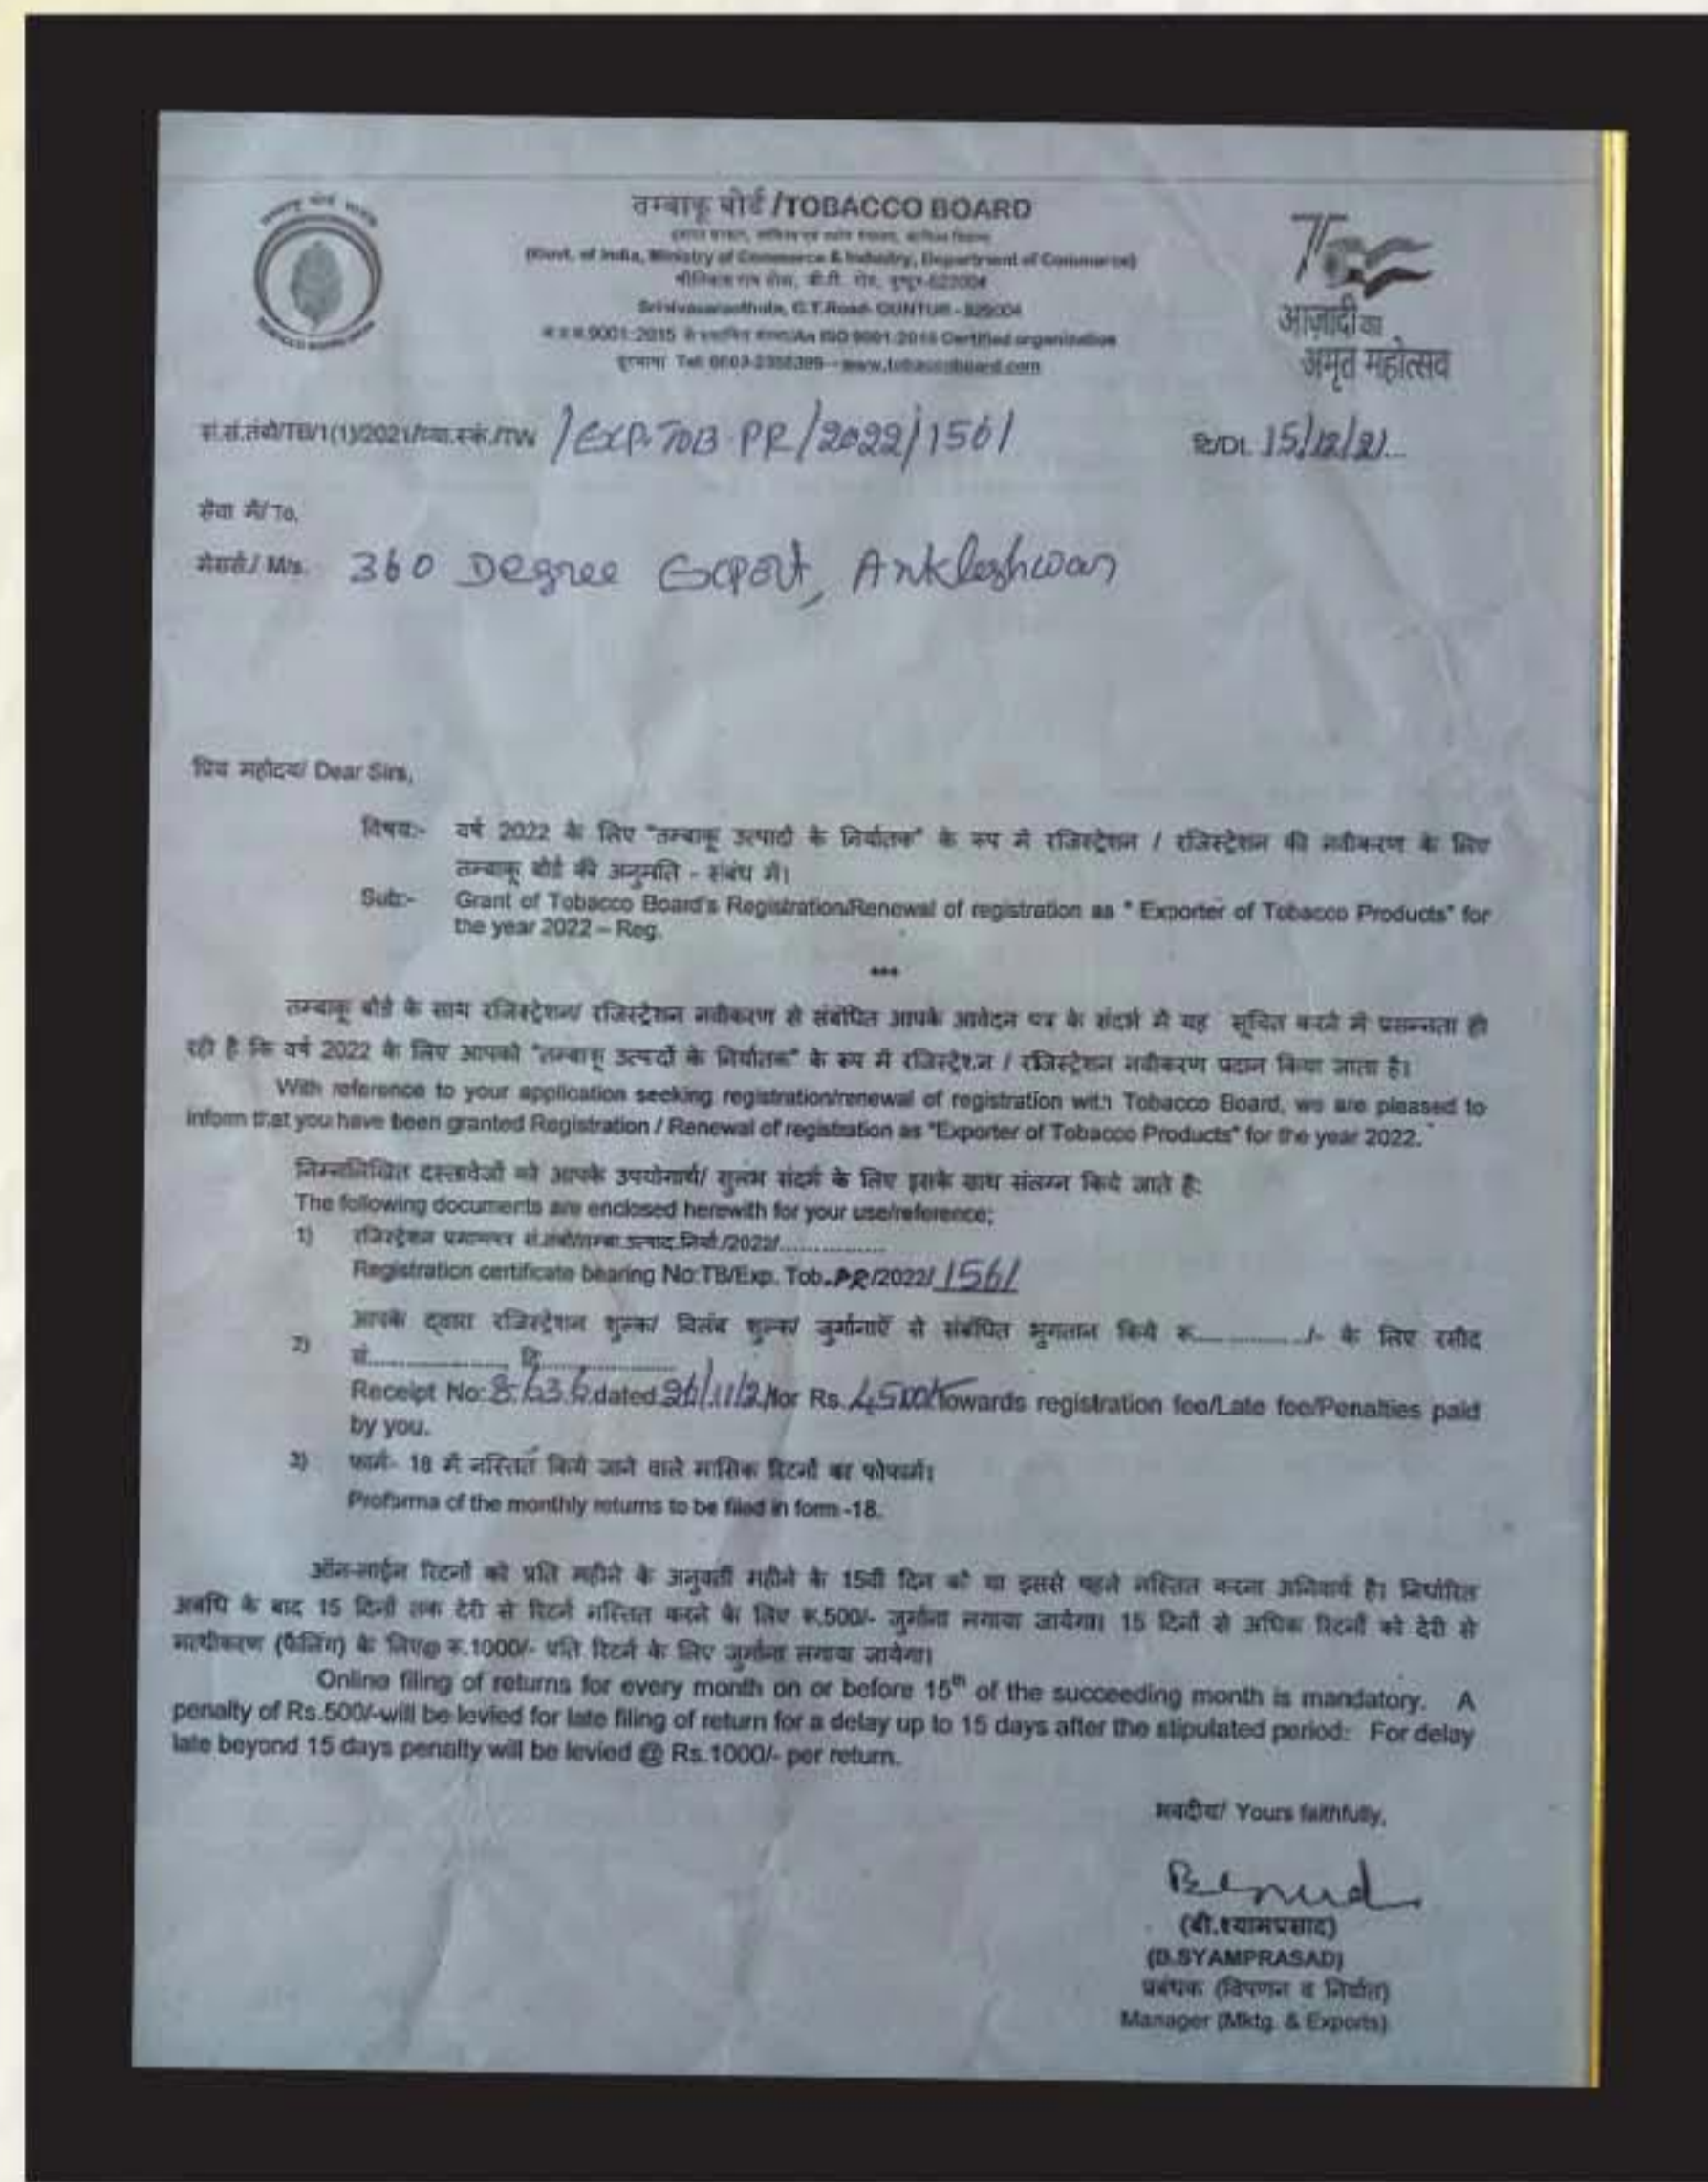

Our very own brand **Nature 360°** has been widely accepted in our very own country and foreign countries as well. Our one motto is to generate foreign exchange for our country, generate employment in this sector and serve our overseas and domestic clients in every possible manner.

Apart from that we have been socially active and have successfully conducted programs to fight covid and help during a covid pandemic.

Now, as we are serving & offering a majority of products we are proudly announcing ourselves as a **360 Degree Export Group**.
